BUSINESS OVERVIEW

Eastern Pacific Industrial Corporation Berhad (EPIC Berhad) is a Terengganu Government-Linked Company (GLC), operating as an integrated oil and gas solutions provider across both the upstream and downstream value chains. Its core business lies in providing base services tailored to the offshore oil and gas industry. Additionally, the company offers port management services, marine engineering and services, as well as engineering and maintenance services. EPIC Berhad is also a key player in the renewable energy and green technology sectors, contributing to Malaysia's transition towards a greener energy mix and supporting the nation's efforts to build a low-carbon and resource-efficient economy.
